Suriname is located on the northeastern coast of South America, and became independent of Netherlands on 25th Nov. 1975. The capital Paramaribo is built on a lowlying spit of sand, twelve miles upstream on the Suriname-River. It was settled way back in the 17th century, and over the years it has grown into a gallimaufry of Spanish main seaport, Dutch outpost and melting pot for one of the most heterogeneous populations. I am here as a representative of Japan Radio Co., and got a permission for amateur radio. Thanks to Suriname government Mr. Vermeij and PZ Ham's.
